Regent Wall Hung Bidet

- Please read these instructions carefully before starting installation.
- Check the product for missing parts and damages.
- In the unlikely event of product failure, please refer to supplier concerning product guarantee.
- We strongly recommend the use of a qualified plumber.
- In new buildings it is recommended to fill the traps with water to ensure toxic gases do not corrode the surface of the taps and seat fittings
- Fix all the outlet and inlet valves before installation.
- Periodic cleaning and maintenance should be used to avoid formation of damaging lime scale deposits.
- Abrasive cleaning agents may damage some materials, such as seat hinges and plastic components

1 - Prepare the waste and the fixing rods as shown in the picture and cut if necessary

2 - Screw in the two steel sleeves located in the fixing pack

3 - Prepare the connection for the cistern flushing according to the given dimensions

To connect more easily we suggest lubricating both sides of the connection

4 - Place the WC on the brackets

5 - Adjust the WC and secure it with the fixing nuts provided in the fixing pack

We recommend tightening the nuts alternately to ensure flush fitting

We recommend that all products are purchased with the assistance of a specialist bathroom retailer and always installed by an experienced installer who is a member of a recognised association. All sizes quoted are nominal : items may vary by +/- 2% against the figures quoted. When planning installations where dimensions are critical, it is essential that the space allowed for the individual items is physically checked.
