Safety Precautions

Be sure to carefully read this "Safety Precautions" document before beginning installation.

Please comply with all safety warnings and precautions.

Symbol	Meaning
 WARNING	This symbol indicates misuse may result in death or serious injury.
 CAUTION	This symbol indicates misuse may result in injury or physical damage.

WARNING

Do not use this product with any power supply other than the one specified. (AC220-240 V, 50 Hz)

Doing so may result in heat or fire.

Confirm that the power source connection is connected correctly.

Doing so may result in electrical shock or fire.

Do not use the product when the power cord or power source connection is damaged or the power source connection is loose.

Doing so may result in electrical shock or fire.

Do not install a power connecting part directly beneath a water supply location. Do not allow the water supply hose to touch the power connecting part.

Doing so may cause condensation resulting in a fire, electrical shock, heat or a short.

Do not use other water than allowed by the laws and ordinances of the region of use.

Only use potable water. Do not use seawater or recycled water.

Doing so may cause irritation to the skin and malfunction.

Do not install the product on moving vehicles such as wheeled vehicles or boats.

Doing so may cause fire, electric shock, short circuit or malfunction.

The toilet seat, toilet lid, main unit, or other parts may come loose and fall off, resulting in injury.

Do not do anything that may damage the power cord or power source connection.

Do not strike, yank, twist, excessively bend, damage, alter, or heat any power cord or power source connection. Also, do not place anything heavy on, bind or pinch them.

Using a damaged power cord may result in a fire, electrical shock, heat or a short circuit.

Do not dismount and mount the main unit while power is on or water is flowing to the main unit.

Otherwise, electric shock or trouble may occur.

Do not cut the string (C-9-1) that connects the main unit (C-1) and base plate.

Doing so may cause fire, electrical shock, overheating, short circuit or breakdown.

This is an electrical product. Do not locate it anywhere water is likely to get on it. Do not locate the product in a humid environment where water may form on the surface of the product.

When using the product in a bathroom, install a ventilation fan or opening, so that the bathroom has sufficient airflow to avoid extreme humidity.

Failure to do so may result in electrical shock or fire.

Always connect the product to the cold water supply.

Connecting to hot water supply may result in burns and equipment damage.

Confirm that wiring is connected correctly (L terminal: Live, N terminal: Neutral).

Incorrect wiring may cause mechanical failure.

Always connect to a ground fault circuit interrupter (30 mA or less).

If the power cord is damaged, avoid danger by having the manufacturer's repair department or equivalent specialist replace it.

When installing this product, comply with the regional codes and standards on installation work and electrical work.

All-pole disconnection incorporated in the fixed wiring shall be provided.

Safety Precautions (Continued)

CAUTION

Install the Washlet properly according to the Installation Guide.

Improper installation may result in water leakage, electric shock or fire.

Do not lift the product by the toilet seat or toilet lid.

Doing so may result in the product main body dislodging, falling and causing injury.

Do not fold or crush the water supply hose; do not damage by cutting with a sharp object.

Doing so may result in water leakage.

Do not remove the water filter drain valve while the shutoff valve is open.

Doing so will result in water leakage.

Push the product main body securely onto the base plate. After pushing the product main body until a click sound is heard, pull it slightly toward you to make sure that the product does not detach.

Not doing so may result in the product main body dislodging, falling and causing injury.

Make sure the plus and minus signs on the batteries are aligned correctly before inserting them.

Otherwise, the batteries may leak fluid, generate heat, rupture, or ignite.

When the product will not be used for a long time, remove the batteries from the remote control.

Failure to do so may cause the batteries to leak fluid.

This product is classified as Class I Equipment and must be grounded.

Install this equipment so that its power breaker is accessible.

Use the new hose set included with this equipment. Do not reuse an old hose set.

Precautions before installation

- Do not turn on the electricity and water supply for the product until installation work is complete.
- Do not damage the connection components on the water supply hose (C-2).
- The water supply pressure ranges from 0.1 MPa <dynamic> - 1.0 MPa <static>.
Use the unit within the said pressure range.
- The temperature of the water supply should be within a range of 0 to 35 °C. Make sure the temperature is within this range.
- Working ambient temperature is within the range of 0 to 40 °C. Make sure the temperature is within this range.
- Do not use water supply hoses (C-2) other than those supplied with the product.
*Because a water flow test is conducted on each product at the factory, water may remain inside the product. This water does not indicate a problem with the product.
- The packing bag on the end of the water supply hose (C-2) is to protect from damage, so do not remove it until step ⑧-⑥.

- Perform wiring correctly according to this product's specifications (rated power 7 A or more, 220-240 VAC (50 Hz)).

*Power supply, rated power consumption is indicated on the label of this product.

- Connect the 60227 IEC 53 cord to the connector (A-8).
- The following conditions may affect the reception performance of the remote control, resulting in it not being able to operate the main unit.
 - When the room size, the layout of fixtures etc. interfere
 - When the color of the ceiling or walls is too dark, or their shape or material interfere
 - When there is a rack or cabinet installed on the wall behind the main unit
 - When an inverter lighting system is used

Change the position of the remote control or try from the opposite wall.

*Please ask home owner if they would like anti-theft parts for remote control (A-6) and a remote control operation guide (A-10) installed before starting installation. Please leave the anti-theft kit with the owner if it is not installed.

*Bitte fragen Sie den Eigentümer, ob er wünscht, das vor Beginn der Installation eine Diebstahlsicherung für die Fernbedienung (A-6) und ein Kurzanleitung für die Fernbedienung (A-10) installiert werden. Bitte lassen Sie das Diebstahlsicherungskit bei Eigentümer, falls es nicht installiert wird.

*Veuillez demander au propriétaire s'il désire que des pièces antivol pour la commande à distance (A-6) et qu'un guide de fonctionnement pour la commande à distance (A-10) soient installés avant de commencer l'installation. Veuillez laisser la trousse antivol au propriétaire si elles ne doivent pas être installés.

*Chiedere al proprietario della casa se desidera che si installino le parti antifurto per telecomando (A-6) e una guida operativa per telecomando (A-10) prima di cominciare l'installazione.

1

2**1****2****3****3**

Installing the bowl unit (see bowl unit installation guide).

Installieren der WC-Keramik (siehe Installationsanleitung der WC-Keramik).

Installation de la cuvette (voir le guide d'installation de la cuvette).

Installazione della tazza (consultare la guida per l'installazione della tazza).

4

5

6

Failure to tighten screw A-7-1 completely will cause moving sideways of C-1.

Wird die Schraube A-7-1 nicht vollständig angezogen, wird sich C-1 seitlich verschieben.

Ne pas serrer complètement la vis A-7-1 entraînera un déplacement latéral de C-1.

Il mancato serraggio completo della vite A-7-1 causa uno spostamento laterale di C-1.

7

8

- ② Insert C-9 into A-7 until a click sound is heard.
(After C-9-1 is mounted, make sure that it can not be removed even if it is pulled.)
- ② Drücken Sie C-9 in A-7, bis er mit einem Klicken einrastet.
(Stellen Sie nach der Anbringung sicher, dass sich C-9-1 nicht lösen lässt, selbst wenn Sie daran ziehen.)
- ② Insérez l'élément C-9 dans l'élément A-7 jusqu'à ce qu'un déclic se fasse entendre.
(Après le montage de l'élément C-9-1, assurez-vous qu'il ne soit pas possible de le retirer, même en le tirant.)
- ② Inserire C-9 in A-7 finché non si avverte uno scatto.
(Dopo averlo montato, accertarsi che il C-9-1 non possa essere staccato anche se tirato.)

9

- ② Insert C-1 into A-7 until a click sound is heard.
(After C-1 is mounted, make sure that it can not be removed even if it is pulled.)
- ② Drücken Sie den C-1 in die A-7, bis er mit einem Klicken einrastet.
(Stellen Sie nach der Anbringung sicher, dass sich der C-1 nicht lösen lässt, selbst wenn Sie daran ziehen.)
- ② Insérez l'élément C-1 dans l'élément A-7 jusqu'à ce qu'un déclic se fasse entendre.
(Après le montage de l'élément C-1, assurez-vous qu'il ne soit pas possible de le retirer, même en le tirant.)
- ② Inserire C-1 in A-7 finché non si avverte uno scatto.
(Dopo averlo montato, accertarsi che il C-1 non possa essere staccato anche se tirato.)

⚠ WARNING / ACHTUNG / AVERTISSEMENT / PERICOLO

Do not dismount and mount the main unit while power is on or water is flowing to the main unit.

Otherwise, electric shock or trouble may occur.

Bei eingeschalteter Stromversorgung oder Wasserzufuhr ist das Montieren oder Abmontieren des Aufsatzes unbedingt zu unterlassen.

Andernfalls drohen Stromschläge oder Störungen.

Ne démontez pas et ne montez pas l'unité principale alors que l'alimentation électrique est sous tension ou alors que de l'eau s'écoule dans l'unité principale.

Sinon des décharges électriques ou des problèmes peuvent s'ensuivre.

Non smontare e montare l'unità principale mentre l'alimentazione elettrica è accesa o mentre è in corso il rifornimento dell'acqua all'unità principale.

In caso contrario, potrebbero verificarsi scosse elettriche o altri problemi.

- Press, hold and proceed with Step ④.
- Halten Sie gedrückt und fahren Sie mit Schritt ④ fort.
- Maintenez enfoncé et passez à l'étape ④.
- Premere, tenere e procedere al passaggio ④.

Information for the installer / Informationen für den Installateur
Aux entrepreneurs en installation / Informazioni per l'installatore

Fill in the necessary information on the warranty card and be sure to hand it to the customer.

Füllen Sie die erforderlichen Informationen in die Garantiekarte ein und übergeben Sie diese dem Kunden.

Inscrivez les renseignements nécessaires sur la carte de garantie et veillez à la remettre au client.

Compilare le informazioni necessarie sulla scheda di garanzia e accertarsi di consegnarla al cliente.

Please explain the features and operation of the product to the customer.

Bitte erläutern Sie die Merkmale und die Bedienung des Produkts dem Kunden.

Veillez expliquer les fonctionnalités et le fonctionnement du produit au client.

Si raccomanda di spiegare al cliente le caratteristiche e il funzionamento del prodotto.

If the product will not be used for a long time (like when it is installed in an unoccupied, newly constructed building),

- Turn off power at the breaker on the distribution board.
- To avoid leakage, remove the batteries from the remote control.

Wenn das Produkt für längere Zeit nicht verwendet wird (zum Beispiel wenn es in einem noch unbewohnten, neu errichteten Gebäude installiert wurde),

- Schalten Sie den Schutzschalter am Verteiler aus.
- Entnehmen Sie die Batterien aus der Fernbedienung, um ein Auslaufen zu vermeiden.

Si vous ne comptez pas utiliser le produit pendant une longue période, comme lorsque vous l'installez dans une nouvelle construction encore inoccupée,

- Désactivez l'alimentation au niveau du disjoncteur sur le panneau de répartition.
- Retirez les piles de la télécommande pour éviter toute fuite des piles.

Se il prodotto non verrà utilizzato per un lungo periodo di tempo (come ad esempio quando esso è installato in un edificio disabitato, di recente costruzione),

- Spegnerne l'alimentazione elettrica dall'interruttore sul quadro di distribuzione.
- Rimuovere le batterie dal telecomando per evitare perdite di liquido.

Before installation, be sure to read the installation manual and the separate safety precautions sheet.

Default connection positions

To be provided on site

Water connection

- Flexible cold water connection 460 mm (flexible hose)
- Cold water supply finishing with stop valve 3/8" male connection (not included) to connect to the WASHLET™ flexible hose 3/8" female
- Pressure min. 0,1 MPa (dynamic)
Pressure max. 1,0 MPa (static)

Electrical connection

- Flexible power cord 400 mm, H05VV-F 3G1.00mm²
- Hirschmann electrical connector (included)
- Power supply 220 – 240 V ~ 50/60 Hz
- Max. Power rating 1451 W

Prepare the connection within the above specified area.

We suggest using the TOTO connecting set SP10695UN for hidden connections WASHLET™ RW, RX, SX GL 2.0, EK 2.0, RG, RG Lite to prepare the water connection on Geberit frames with Sigma concealed cistern 12 cm with empty conduit, located on the left hand side 50 mm from the center of the frame at the same height as the fixation bolts.

Install a power source circuit cutoff device (according to IEC 60335-1).

Install a Residual Current Circuit Breaker (RCCB) ($I_n = 30 \text{ mA}$) that disconnects all phases from mains.
