in action

Unrivalled experience - The magic of bubbles

Discover the new BubbleSpa® shower, an epitome of our dedication to crafting the world's most enchanting showering experience. With over a decade of pioneering innovation, every detail is a testament to our unwavering commitment to quality and luxury.

Holistic shower therapy - Indulge in BubbleTapping

Experience the soft, rhythmic touch of BubbleRain spray. Each large, air-filled droplet is a gentle embrace, reminiscent of the traditional Swedish massage techniques. This BubbleTapping therapy offers a plethora of health benefits including improved circulation, immune system enhancement, and relaxation.

BubbleRain - Stream

The BubbleSpa® experience

The harmonious blend of air and water produces large, air-filled droplets that encapsulate the skin in a sensory embrace.

Each BubbleRain experience promises rejuvenation and a sanctuary from stress, a true spa-like sensation.

Multi-sensory

BubbleSpa® transforms the daily shower into a luxury spa experience that you can see, feel and hear. Discrete LEDs illuminate the bubbles which are so big they emit a satisfying sound as they softly tap and burst on the skin.

High-Definition Design

An embedded intelligent LED system illuminates each bubble, offering a visual symphony. With the touch of a button, immerse in varying BubbleRain spray patterns that beckon the senses into realms of calm and invigoration.

Air-Powered™ innovation

BubbleSpa® boasts the patented Air-Powered™ technology, a masterpiece of over a decade of innovation, ensuring unparalleled performance and indulgence.

Hydro₂ Nozzles

Nestled within the shower head, sixteen precision-engineered Hydro₂ nozzles, crafted through advanced computer modelling, weave air and water into air-filled bubbles, elevating each moment under the spray.

BubbleSpa® kits

As well as the parts supplied with your chosen interface, this kit is available with a choice of mounting options.

TOGO BUBBLESPA® KITS

5	Spherical filter screen	2
6	Power supply adapter	1

Connection Diagram

WIRELESS BUTTON

Experience the convenience of complete shower control without the need for batteries, Wi-Fi, or Bluetooth connectivity. Our wireless button uses clever kinetic energy technology, generating enough power with every press to activate your shower and bring it to a comfortable 38°C.

COMPATIBLE
WITH ALL
TOGO SERIES
INTERFACES

Perfect for wet room installations, the wireless button allows you to position your main controls exactly where you want them. Rather than placing controls at the room entrance, install them within the showering area and use the wireless button to start your shower before stepping in.

- 45mm x 45mm
- Compatible with full TOGO range

Once showering, there's no need to move away from the water to make adjustments. Temperature changes and outlet diversion can all be controlled from within easy reach, delivering a more convenient and enjoyable showering experience.
